PROJECTS

Sudoku Solver- Reference
- The sudoku solver is the program where you input the sudoku game but with some empty values, and the code will solve it using backtracking.

Meeting Management System- Reference
- The requirements work product that formally specifies Organization Meeting And Voting Management(OMVM). It includes the results of both business analysis and systems analysis efforts.

Mama Food -Reference
- Mama Food connects passionate home chefs, mainly moms, with food enthusiasts looking for authentic homemade meals, creating a platform for buying and selling delicious dishes online.

LicenseAlert -Reference
- my first freelance project for a Ministry of Interior Captain. This application ensures real-time venue license verification, showcasing my commitment to delivering effective solutions.

Medical System -Reference
- simplifies healthcare by enabling easy clinic and lab bookings while securely storing patient medical histories. Seamlessly connecting medical facilities, clinics, and pharmacies, it offers a comprehensive and user-friendly solution for personalized patient care.

ACTIVITIES

Problem-Solving Mentor & Coach -SVNU-CPC Community(September 2021 -Present)

Mentoring and Coaching students by teaching them the principles of problem-solving using C++.
